

Australia's Most  
Experienced Industrial  
Cleaning Company

Australia's Most Experienced Industrial Cleaning Company

Ductclean is one of Australia's largest and most successful industrial cleaning contractors, with over 35 years of experience in delivering intelligent and innovative duct cleaning, filter maintenance and industrial cleaning services to the commercial and industrial markets.

Ductclean is a pioneer in delivering hygienic services to clients that include major national and international companies, federal and state government departments. Ductclean also offers a qualitative consultancy service and has invested in the latest technology offering a range of field hygiene services to provide a contaminant free working environment for a building's occupants.

Ductclean Australia is a single corporate entity, incorporating Air Filter Maintenance and Industrial Cleaning Services.

Our corporate management team and structure encourages a focus on delivering outstanding service to the highest quality for our clients.

### CORE CAPABILITIES

- Complete cleaning and decontamination of HVAC systems
- Microbiological & chemical analysis of particulates including photographic images of condition
- IAQ inspections, reporting and analysis
- Sales and installation of an extensive range of disposable filters and re-activation of washable panel filters
- Cleaning of kitchen, laundry, toilet, carpark and process exhaust systems
- Routine cleaning of kitchen grease filters and washable panel filters
- Thorough cleaning of air conditioning plantrooms

### INDOOR AIR QUALITY

According to the CSIRO (1998), the "The airborne chemical cocktail Australians inhale in their homes and offices is costing the nation nearly 12 billion dollars a year in sickness and lost productivity".

To combat this, Ductclean offers Air Quality Testing of HVAC systems in accordance with the Property Council of Australia's Guidelines. Testing may include, but not be limited to, carbon dioxide, carbon monoxide, temperature, relative humidity and volatile organic compounds.

### PROFESSIONAL AFFILIATIONS

Ductclean is an active member of the National Air Ducts Cleaners Association, exposing the business to the latest technology from industry experts within Australia and internationally.

### INDUSTRY LEADERS

Our range of technical capabilities supported by advanced communication and information technology systems enables us to deliver excellence in service to our clients.

### OCCUPATIONAL HEALTH AND SAFETY

Ductclean OH&S measures include provisions for safety inductions, job safety analysis, plant inspections, regular site safety inspections, hazard assessment, risk assessment and control. We continually review our safety procedures and systems to ensure we are meeting Australian Standards and protecting the well-being of our employees..
